DETAILED ACTION

Allowable Subject Matter

1. Claims 1-25 are allowed.
2. The following is an examiner's statement of reasons for allowance: as to claims 1-25, patentability resides, at least in part, in the cabinet comprising a front panel including an Ethernet data port and defining a recessed volume that is at least partially occupied by a work shelf, wherein the work shelf allows access to the data port in one position and inhibits access to the data port in another position, in combination with the other limitations of the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Please note the teachings of Gallagher et al. (6157534), Johnson et al. (6621692), Markovich et al. (6283429), Gill et al. (5388032), Papa et al. (6175490), Terao (6529382), Hobbs et al. (5684671), Carpenter et al. (6347020), Caverly et al. (6710962), and Corwley (6452788). It is noted, by the examiner of record, that the prior art of record fails to teach and/or fairly suggest the, at least the claimed

limitations as stated above. Therefore, claims 1-25 are deemed allowable over the prior art of record.
